LESSONS FROM PARC, A XEROX COMPANY: PAST, PRESENT AND FUTURE

Evening Speaker: Markus Larsson, Vice President, Global Business Development
Topic: Appraisal of the Glorious Past and Amazing Future of PARC, a Xerox Company

The Hidden Player — PARC — inventor and refiner of abstract concepts in today's technologies. PARC gave birth to most technologies that are incorporated into mobile phones, laptops and printers that are part of our daily lives.

Glorious Past Contributions:
- Laser Printing
- Ethernet
- Modern Personal Computer
- Graphical User Interface
- Conference Technologies
- Indexing Technologies

Amazing Future: Six Focus Areas:
- AI & Human Machine
- Digital Workplace
- Novel Printing
- IoT & Machine
- Digital Design & Manufacturing
- Microsystems & Smart Devices

Fireside Chat over Coffee: Henry Chesbrough and Tolga Kurtoglu moderated by K.R. Sanjiv
Topic: Takeaways for BIF Members from Xerox PARC — The Past, Present and Impending Future Strategies
HENRY CHESBROUGH
Faculty Director, Garwood Center for Corporate Innovation, UC Berkeley

Henry Chesbrough is a professor at the Haas Business School, UC Berkeley, and Faculty Director for Garwood Center for Corporation. An internationally acclaimed author, Dr. Chesbrough’s open innovation concept was first introduced in his award-winning book, “Open Innovation: The New Imperative for Creating and Profiting from Technology” (2003). When Henry Chesbrough coined the term Open Innovation in the early 2000s, he defined an approach that companies around the globe now use to innovate. Chesbrough works directly with companies through Garwood’s programs to apply the principles of Open Innovation, and he continues to refine our understanding of Open Innovation through his research and books.

JULIE COTTINEAU
Founder & CEO, BrandTwist

Julie is the author of the best-selling book “TWIST: How Fresh Perspectives Build Breakthrough Brands”. She is an authority on how businesses can achieve breakthrough results and a frequent commentator on brand strategy and innovation in top business media such as Forbes.com, Entrepreneur Magazine, and CNN. Julie was the VP of Brand at Richard Branson’s Virgin Group overseeing branding strategy for new and established Virgin companies in North America. Prior to joining Virgin, Julie served as Executive Director of Consumer Branding at Interbrand as well as a VP Management Supervisor at Grey Worldwide in both the U.S. and France.

SANDRO VALERI
Innovation Strategy Director, Embraer

Born an aircraft manufacturer in Brazil, Embraer was keen on Open Innovation since Day 1, fifty years before this term was coined. Only through Open Innovation, Co-Creation and Collaboration was the firm able to move forward into the future of aviation and urban mobility. Embraer has recently shifted its focus from Commercial Aviation (now on a JV with Boeing) to its other business segments that include a) Defense Aircrafts, b) Executive Jets, c) Air Traffic Controls, d) National Border Digital Controls and Monitoring, e) Satellites operation. In addition, the firm launched EmbraerX, which has entered into game-changing disruptive autonomous flights in partnership with companies like Uber. All these changes raise an important two-part challenge: 1) How can Embraer as a Brand be reinvented for the next 50 years, while shifting its focus to its other core businesses and entering to new disruptive transportation vehicles? 2) How can Embraer bring a renewed open innovation approach to enhance its brand, while embracing its new mission?

DEBORAH STOKES
Director External Research & Academic Alliances, Dell EMC

Deborah R. Stokes is the Director, External Research and Academic Alliances for Dell EMC. In this role, she is responsible for research and education programs, collaborating across the R&D ecosystem, as part of the Office of the CTO. Deborah has served in various technology leadership positions including business development, advanced technology, product development, marketing, and operations for over 25 years in large global technology firms such as Nortel and Huawei. She also has additional experience in the education vertical. She has numerous publications in the technology management field, and has filed a patent on measuring the ROI from university investments.
