**Welcome by Solomon Darwin**

Solomon Darwin is the executive director, Garwood Center for Corporate Innovation, and former executive director of the Center for Financial Reporting and Management at the Haas School of Business. Prior to joining UC Berkeley, he was an associate professor at the University of Southern California from 1996 – 2005. Darwin has more than 13 years of industry experience at Bank of America and Motorola.

**Networking Cocktail Reception and Tour**

*Using Space to Help Life on Earth: Planet is driven by a mission to image all of Earth’s landmass every day, and make global change visible, accessible and actionable.*

Over the past decade with our customers, Planet has revolutionized the Earth observation industry, democratizing access to satellite data beyond the traditional agriculture and defense sectors.

**Networking Dinner**

**Fireside Chat with Will Marshall, Co-founder and CEO, Planet, and Her Excellency Patricia Scotland, Secretary General of Commonwealth Nations**

Will Marshall is chairman, co-founder & CEO of Planet. Will is a scientist-turned-entrepreneur with extensive experience building and leading teams in the technology space at NASA and now at Planet. He has grown the team from the garage to a public company of more than 800 people. He oversees the vision, product, and business strategy, carrying out Planet’s mission as written into its Public Benefit Corporation charter. Will was recognized as a Young Global Leader by the World Economic Forum and serves on the board of the Open Lunar Foundation. Prior to Planet, Will was a scientist at NASA/USRA. He holds a Ph.D. in physics from the University of Oxford and a masters in physics with space science and technology from the University of Leicester. He was also a postdoctoral fellow at George Washington University and Harvard.

Her Excellency Patricia Scotland KC (King’s Counsel) is the 6th Commonwealth Secretary-General, twice-elected by the 56 nations. She was born in Dominica and was their candidate for the post at the Commonwealth Heads of Government Meeting (CHOGM) in Malta in 2015. She is the second secretary-general from the Caribbean and the first woman to hold the post. She is a member of the House of Lords.
Day 1: Thursday, April 20, 2023
Location: NVIDIA Campus: A Journey Exploring the World of AI.
2888 San Tomas Expy, Santa Clara, CA 95051

7:45am | Bus pick-up at AC Marriott Hotel

8:00am - 9:00am | Registration & Networking Breakfast - NVIDIA

9:00am - 9:15am | Welcome by Henry Chesbrough
Henry Chesbrough is a professor at the Haas Business School, UC Berkeley, and faculty director of the Garwood Center for Corporate Innovation. An internationally acclaimed author, Dr. Chesbrough's Open Innovation concept was first introduced in his award-winning book, *Open Innovation: The New Imperative for Creating and Profiting from Technology* (2003). When he coined the term Open Innovation, he defined an approach that companies around the globe now use to innovate. Today, Chesbrough works directly with companies through Garwood’s programs to apply the principles of Open Innovation, and he continues to refine our understanding through his research and books.

9:15am - 10:00am | Networking: Speed Dating

10:00am - 10:45am | The New AI Superpower: Building Virtual Worlds. Fireside Chat Moderated by Solomon Darwin
Hue Tran Davis is the head of market development and strategic partnerships at Nvidia and leads global business development for Omniverse and Metaverse initiatives. Prior to joining Nvidia, she was the founder and managing partner of Grit Ventures. She also spent nine years at Adobe, first working in corporate development, M&A, and venture investments and then as chief strategy officer for the Creative Cloud and Document Cloud product lines. She holds a B.S. in electrical engineering from UC Santa Barbara and an MBA from the University of California, Berkeley, Haas School of Business.

Keith Strier works with senior leaders across public and private sectors to help them understand the new art of the possible when AI, GPU-accelerated computing, autonomous machines, and IoT are deployed at scale. He also leads Nvidia’s AI Nations Initiative, assisting governments to acquire the AI infrastructure they need to realize their plans, whether to improve the citizen experience or build an AI mega-city that transforms urban living. Keith co-chairs the OECD.AI Expert Group on AI Compute and Climate.

Her Excellency Patricia Scotland KC (King’s Counsel) is the 6th Commonwealth Secretary-General, twice-elected by the 56 nations. She was born in Dominica and was their candidate for the post at the Commonwealth Heads of Government Meeting (CHOGM) in Malta in 2015. She is the second secretary-general from the Caribbean and the first woman to hold the post. She is a member of the House of Lords.

**New Open Innovation Paradigm in Healthcare: How Do We Add 80 Billion Productive Years to this Generation?**

**Sampath Kumar**
Principal Sec of Healthcare, Meghalaya, India

Sampath Kumar is an administrative service officer in India with more than 24 years of leadership experience. He has worked for more than 17 years in the Indian Administrative Service (IAS) and 7 years in the nonprofit sector. Sampath Kumar has had the opportunity to design and implement innovative and scalable policy solutions for poverty reduction, women’s empowerment, rural development, and participatory governance. In Meghalaya, he launched the State Capability Enhancement Project (SCEP) as a means of strengthening state capacity, while tackling complex challenges, including the COVID-19 pandemic. Applying principles of the SCEP, Meghalaya’s response involved cross-department collaboration, alliance between government and civil society, and mass mobilization of a community-level response across the state. The state has also used the heightened focus on health to tackle other key issues, such as maternal and child mortality.

**Prof. Asta Pundziene**
Professor, Kaunas University of Technology, Lithuania
Visiting Scholar, Haas School of Business, UC Berkeley

Asta Pundziene is a full professor in strategic management and organizational psychology in the School of Economics and Business, Kaunas University of Technology, Lithuania. She has more than 15 years of experience in managing research and innovation at universities. She is a founding editor of the *Baltic Journal of Management*. Her current research is related to dynamic capabilities and competitiveness of digital health programs, as well as manifestation of dynamic capabilities of the technological SMEs across countries. She has been a visiting scholar at the Haas School of Business, UC Berkeley, since 2018.

**Dr. Rajkumar Songa**
CEO, Centre for Migration Medicine; India

Dr. Rajkumar Songa did his MBBS, MD (Med) from AIIMS, Delhi. He worked at a few tertiary care hospitals as physician/intensivist and was selected to be the panel physician for five anglophone countries – US, Australia, Canada, UK, and NZ. His panel clinic is the Centre for Migration Medicine (CMM), which is overseen by the CDC, Global Health Australia, and the UK Health Security Agency. He is on the board of several nonprofit organizations, such as Global Disciples and Reasons to Believe (Asia Pacific), and has served as the founding vice president of the International Panel Physician Association (IPPA). He has an MA in OLM (Organizational Leadership and Management) from Sam Higginbottom University, Allahabad. He is currently a Garwood Fellow at the University of California, Berkeley, Haas School of Business.

4:45pm - 5:15pm

**Berkeley Innovation Squad (Haas MBAs)**
Solutions to BIF Members’ Challenges - Project Presentations

Google, Nvidia, and NASA on measuring the impact of Earth and the Earth’s declining balance sheet.

<td>Wipro's Silicon Valley Innovation Center showcases emerging technologies that enable their clients to become future-ready in this era of digital transformation. The center demonstrates cutting-edge enterprise applications based on disruptive technologies such as artificial intelligence, virtual reality, hyperspectral imaging, machine vision and collaborative robotics &amp; automation, to solve real-world business challenges faced by enterprises. The center will also serve as a value creator for technology start-ups, small and medium enterprises, and entrepreneurs, enabling them to showcase and integrate their technology capabilities with that of Wipro and participate in the larger innovation ecosystem.</td>
</tr>
<tr>
<td></td>
<td>- Subha brings two decades of experience in the IT industry spanning product development, delivery, lifecycle management, cloud computing, data technology, and analytics. Subha previously was at Walmart, where she led product, technology development and commercialization of enterprise infrastructure. She previously headed the product, data &amp; infrastructure platform at PayPal, where she drove transformation through scalable, API-driven interoperable platforms. She was instrumental in simplifying the data and analytics infrastructure and pioneered modernization initiatives across cloud, developer platforms, and frameworks. Her earlier career experience included building scalable solutions across large enterprises, including Abbott Labs, Fannie Mae, and Bearing Point.</td>
</tr>
<tr>
<td></td>
<td>- Nitin Narkhede is General Manager of Emerging Technologies and Innovation at Wipro Technologies. He is responsible for the development of new services and solutions based on emerging trends and technologies at Wipro. Nitin has been in the forefront of a number of technology and business model transitions during his 20 years of work at Wipro. Prior to his current assignment, he managed Wipro’s e-Business Solutions Practice in the Americas. Nitin has over 23 years of experience in the technology industry spanning IT strategy and planning, information systems and software product development, technology strategy and innovation management.</td>
